## Old Money Collection

This jacket is crafted from 100% virgin wool fabric. Virgin wool boasts superior fiber quality, as the first shearing yields exceptionally soft and fine fibers, delivering an exquisite hand feel and excellent thermal properties. With a weight of 320g/m<sup>2</sup>, this heavier fabric offers substantial thickness, making it ideal for unstructured blazers that maintain their shape while providing a structured drape.

The herringbone-patterned fabric embodies timeless elegance with a vintage touch. The intricate weave enhances visual depth and dimensionality, elevating the blazer's refined texture. Compared to plain weaves, herringbone's complex interlacing reflects superior craftsmanship.

As a signature ANGELICO fabric, this material represents the brand's enduring commitment to quality and heritage. Its consistent excellence over time underscores ANGELICO's dedication to classic aesthetics and premium textiles—where tradition and craftsmanship converge.
